

# MUKUND KAPADIA

## Full Stack Developer

437-249-2900 mdrkkapadia@gmail.com

[mukundkapadia.me](http://mukundkapadia.me) | [linkedin.com/in/mukund1987](https://linkedin.com/in/mukund1987) | [github.com/mukund-2114](https://github.com/mukund-2114)

## TECHNICAL SKILLS

---

**Languages:** TypeScript, JavaScript (ES6+), Node.js

**Front-end:** React, Next.js, Tailwind

**Back-end:** Express.js, Node.js

**Databases:** MongoDB

**Developer Tools:** Git, Github, Postman

**Cloud Services:** Firebase, Google Cloud Platform

## EXPERIENCE

---

### Full Stack React Developer

Jan 23 - Oct 23

*BrainyBeam Infotech Pvt. Ltd*

*Ahmedabad, India*

- Independently designed and implemented responsive web applications using React and TypeScript, demonstrating strong problem-solving abilities
- Developed and maintained RESTful APIs using Express.js and Node.js, showcasing full-stack development capabilities
- Collaborated directly with stakeholders to deliver features on deadline while maintaining code quality
- Mentored junior developers in React best practices and component-based architecture
- Demonstrated entrepreneurial mindset by proposing and implementing new features to enhance user experience

## PROJECTS

---

### EasyApi: Custom API Generator | *Next.js, TypeScript, MongoDB*

In Progress

- Architecting and developing a web platform that enables independent API generation and deployment
- Implementing secure authentication systems and scalable database solutions using MongoDB
- Taking full ownership of feature development from design to deployment
- Building an intuitive dashboard for monitoring and analytics

### Cellphone Store (Group Project) | *React, Node.js, MongoDB*

Mar 24 - Apr 24

- Led development of a full-stack e-commerce platform using MERN stack (MongoDB, Express, React, Node.js)
- Independently designed and implemented key features including product search and user authentication
- Demonstrated strong problem-solving skills by optimizing database queries and implementing complex business logic

### Airbnb Clone Web Application | *React, Node.js, MongoDB*

Sept 23 - Oct 23

- Built a full-featured rental platform using TypeScript and the MERN stack
- Implemented secure payment processing and user authentication systems
- Developed and maintained both client and server-side components independently
- Created an administrative dashboard for managing listings and user interactions

## EDUCATION

---

### **Centennial College**

*Mobile Application Development*

Scarborough, ON

*Sept 2024 - Present*

### **Centennial College**

*Software Engineering Technician*

Graduated with 4.27 / 4.5 GPA

Scarborough, ON

*Jan 2024 - Aug 2024*

### **Marwadi University**

*Bachelor's of Technology in Computer Engineering*

Graduated with 8.7 CGPA (85%)

Rajkot, India

*2019 - 2023*

## CERTIFICATIONS

---

### **Postman API Fundamentals Student Expert - Canvas Credentials**

Issued May 2024

### **Career Essentials in Software Development by Microsoft and LinkedIn**

Issued Feb 2024

### **Google IT Support Specialization - Coursera**

Issued May 2023
