

MUKUND KAPADIA

FRONTEND REACT DEVELOPER

Toronto, ON | 437-249-2900 | mdrkkapadia@gmail.com
mukundkapadia.com | linkedin.com/in/mukund1987 | github.com/mukund-2114

Professional Summary

Frontend React Developer with 2+ years of hands-on experience building complex, scalable, and user-centric applications using React.js, React Hooks, React Native, and modern JavaScript ES6+. Proven expertise in state management tools like Redux, Flux, and Context API with strong foundation in translating UI/UX designs into responsive, high-performance web interfaces. Skilled in building responsive and adaptive user interfaces that deliver seamless user experience across desktop and mobile platforms. Extensive experience collaborating with cross-functional teams including UI/UX designers, QA engineers, and backend developers to deliver high-quality software solutions. Passionate about writing clean, maintainable, and scalable code following industry best practices with focus on front-end performance optimization.

Technical Skills

- **Frontend Development:** React.js, React Hooks, React Native, JavaScript ES6+, TypeScript, HTML5, CSS3, Responsive Design
- **State Management:** Redux, Flux, Context API, React State Management, Component-based Architecture
- **UI/UX Technologies:** Tailwind CSS, SASS/SCSS, Bootstrap, Material-UI, Responsive Web Design
- **Backend Integration:** RESTful APIs, Node.js, Express.js, Firebase, MongoDB, MySQL, API Integration
- **Development Tools:** Git, GitHub, Jest, React Testing Library, Webpack, npm, Postman, Agile/Scrum

Work Experience

Frontend React Developer <i>Community of Guardians</i>	March 2025 - Present <i>Toronto, Canada</i>
--	---

- Design, develop, and maintain robust and reusable front-end components using React.js, React Hooks, and modern JavaScript ES6+ for complex, scalable, and user-centric applications
- Build responsive and adaptive user interfaces that deliver seamless user experience across desktop and mobile platforms using component-based architecture
- Integrate with RESTful APIs and collaborate closely with backend developers to ensure seamless data exchange and optimal application performance
- Collaborate with cross-functional teams including UI/UX designers, QA engineers, and product managers to deliver high-quality software solutions

Frontend React Developer <i>BrainyBeam Infotech Pvt. Ltd</i>	September 2021 - October 2023 <i>Ahmedabad, India</i>
--	---

- Developed complex, scalable, and user-centric applications using React.js, React Hooks, and TypeScript with hands-on experience in state management tools like Redux and Context API
- Translated UI/UX designs into responsive, high-performance web interfaces ensuring cross-browser compatibility and mobile responsiveness
- Implemented routing, caching, and form validations while managing application state using Redux and Context API for efficient data handling
- Optimized front-end performance for speed and scalability through code splitting, lazy loading, and efficient rendering techniques
- Participated in Agile workflows including daily stand-ups, sprint planning, and cross-functional collaboration to enhance team productivity

Projects

EasyApi: Custom API Generator <i>React.js, TypeScript, RESTful APIs, Node.js</i>	December 2024 - March 2025 <i>Full-Stack Web Development</i>
--	--

- Built complex web application using React.js and React Hooks with TypeScript for generating and managing APIs, implementing state management with Context API

- Created responsive and adaptive user interface with modern CSS techniques that streamlined developer workflow across desktop and mobile platforms
- Integrated RESTful APIs with robust error handling, data validation, and form validations following React best practices
- Implemented component-based architecture with reusable design patterns, creating maintainable and scalable code-base

PawfectMatch: Pet Adoption App
React.js, Redux, Firebase, RESTful APIs, State Management

November 2023 - January 2024
Mobile-Responsive Web Development

- Developed user-centric web application using React.js with Redux for state management and component-based architecture
- Built responsive and adaptive user interfaces ensuring seamless user experience across desktop and mobile platforms
- Integrated RESTful APIs including Twilio for real-time messaging functionality and Firebase for backend services
- Implemented routing, caching, and form validations using React Router and modern JavaScript ES6+ standards

Luxereserve Hotel Booking
React.js, Redux, Node.js, MongoDB, RESTful APIs

September 2023 - October 2023
Full-Stack Web Development

- Created scalable hotel booking platform using React.js with Redux for state management, adhering to component-based architecture principles
- Translated UI/UX designs into high-performance web interfaces with cross-platform compatibility and responsive design
- Collaborated with backend developers to integrate RESTful APIs ensuring seamless data exchange between frontend and backend
- Implemented user authentication, routing, and form validations using React Router for enhanced user experience

Education

Centennial College
Mobile Application Development - GPA: 4.4/4.5

September 2024 - Present
Toronto, ON

- Focus Areas: React.js Development, JavaScript Frameworks, API Integration, Frontend Testing, Mobile App Development

Centennial College
Software Engineering Technician - GPA: 4.27/4.5

January 2024 - August 2024
Toronto, ON

Leadership

- **Hackathon Winner – WILwork Career Services (2025):** Led cross-functional team to design and develop career exploration app using React.js
- **Student Ambassador – Devant (2025):** Organized technical workshops on React development and frontend best practices

Certifications

- **Google IT Support Professional – May 2023:** Certificate
- **Postman API Fundamentals Expert – May 2024:** Badge
- **Career Essentials in Software Development – Feb 2024:** LinkedIn Certificate
